

# DÉFIS

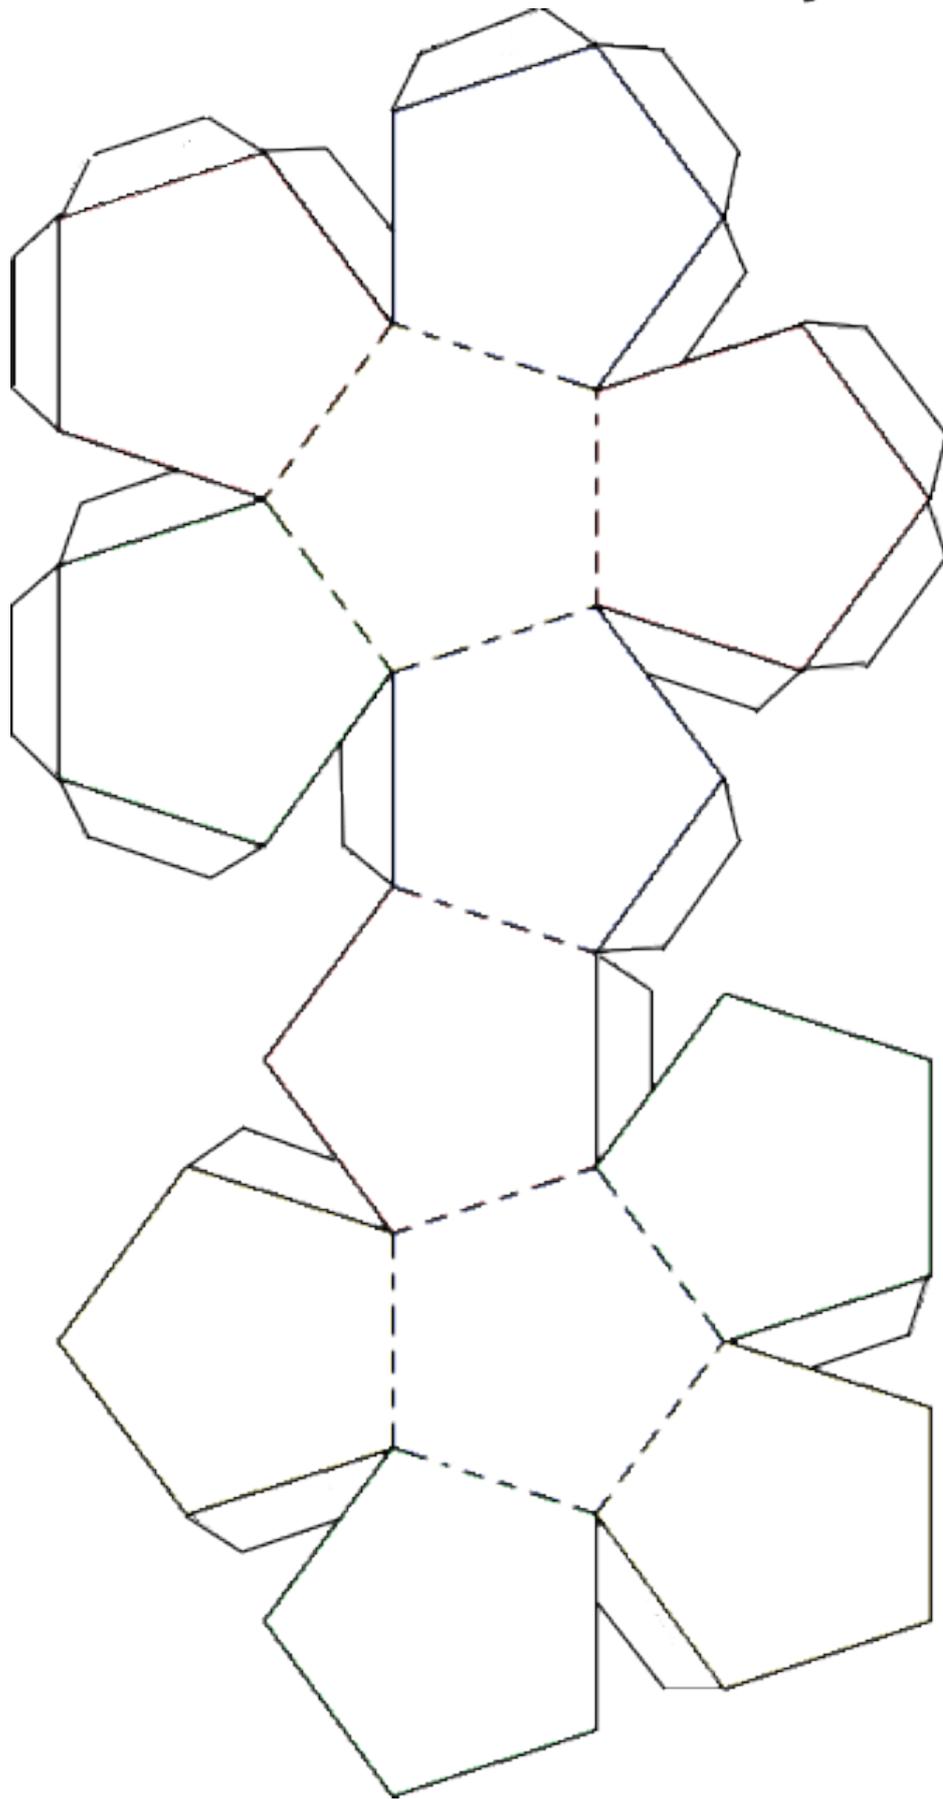

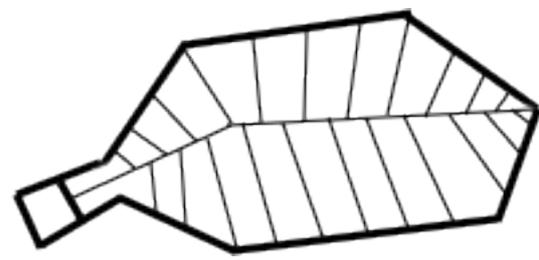

- Crée un **système solaire** avec les planètes des pages 3 à 6. Tu peux utiliser plusieurs fois la même afin d'augmenter leur nombre.
- Dans les pages 3 à 6 trouve les parties qui te permettent de compléter le patron de la **pomme de Newton** qui est page 11. Cela ferait une bien étrange planète...
- Fait l'**étoile filante** la plus délirante possible en dessinant dessus, page 10. Tu peux modifier sa queue, rajouter des morceaux et des couleurs !
- Crée le **peuple d'extraterrestres** qui habite dans ton système solaire avec les pages 7, 8 et 9. Mélange les têtes, les pieds et les mains !
- Construit ta **météorite** page 12 qui vient traverser ton système solaire.
- Fait une **vidéo** avec tout ce que tu as créé et organise un concours de vidéos dans ta classe !
